4V Li-Ion Screwdriver

Compact and multifunctional, our NEW cordless screwdriver works wherever you are. The Li-Ion battery gives this product a longer lifespan as well and allows for more use between charging. Adjust the head for straight-on or angled use and switch between 8 torque settings + drilling for desired torque. Extra features such as the front-facing, LED light make this tool a must-have for any environment.

LED Light for Dark Environments

Rotate Head for Straight Driver

Charge/Power LED Indicators
