

Best Value in the Industry

40 Watt 2-in-1 Soldering Iron and Desoldering Pump

Item: SI-211A

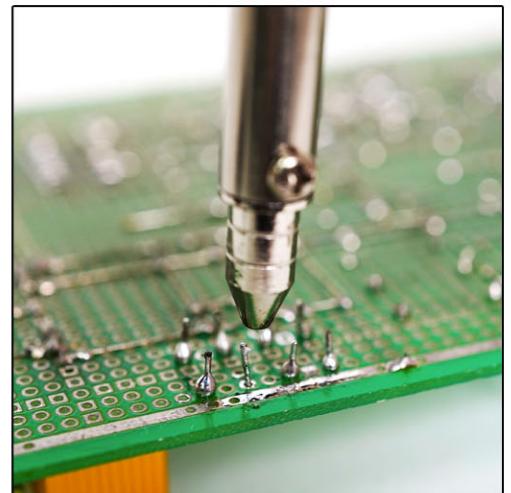

Description

Versatile and efficient, this dual-purpose tool functions as both a soldering iron and a desoldering pump, making it an excellent choice for electronics repair, rework, and prototyping. Powered by a standard 110V cord, it operates at 40 watts to deliver steady, reliable heat for desoldering tasks.

The integrated spring-loaded plunger provides strong suction to remove molten solder quickly and cleanly, while the built-in heating element keeps the nozzle at an optimal temperature for consistent performance. Its compact, pen-style design offers easy one-handed operation and precise control, ideal for working on circuit boards and other delicate components. A practical solution for technicians, hobbyists, and professionals who need an all-in-one soldering and desoldering tool.

Specs

Voltage:	AC 110~130V 60Hz
Power Consumption:	40W
Temperature:	752°F (400°C)
Suction capability:	>35cm-Hg
Nozzle:	Ø0.8" (2.0mm)
Accessories:	Ø0.5" (1.2mm) cleaning pin
Standard plug:	Type A
Overall length:	10.6 in.
